

# The New Stannah Model 600 Silver Rail

Model 600 rails are now available in silver.

The Stannah Silver Rail, also available as a retractable rail, is a welcome addition to our Model 600 Straight Stairlift. At no extra cost, the anodized silver rail will give you one more way to differentiate from competitor products. Just like our bronze rail, the finish is anodized aluminum and comes with plastic covers to hide the leg anchors and rack.
